#### 1. Introduction

This is a document for beginning with ease. Sometimes I felt disturbed by the structures of the LATEX document. I don't know how to reset the arranges among paragraphs, and some environments crash with each other.

Rep Irr  $\Pi$  Char WDrep  $\mathcal{A}_{cusp}$ 

The structure of documents:

- (1) document class;
- (2) packages;
- (3) symbols, containing math operators and other symbols;
- (4) global settings;
- (5) blocks for special features;

 ${\it Date} \hbox{: October 29, 2023.}$
